

Cylinder Tubing

Goldquest Metric Cylinder Tubing

Cylinder Tubes : Technical Specification

- Cold Drawn Tubes
- Steel Grade: DIN ST 52 BK + S (stress relieved)
- Manufacturing Specification: DIN 2391 – C (seamless)
- Straightness: 0,5 : 1000 mm
- Eccentricity: +/- 7,5% of the wall thickness
- Tolerance of bore: h8
- Surface Roughness of Bore: Ra = 0,2 μm / Rt = 3 μm (skived and roller burnished)
- Bore Bearing Ratio Tp : $\geq 60\%$ at 0,17 μm of depth (skived and roller burnished)
- Bore Surface Hardness: 190 up to 245 HB (skived and roller burnished)
- Manufacturing Lengths : 5 / 9 meters
- IMPORTANT: These characteristics are indicative and not binding. Goldquest reserves the right to revise technical characteristics without notice.
